## Sobre Activator Methods®

"The Activator Method® is one of the most widely researched chiropractic techniques and the only instrument adjusting technique with clinical trials to support its efficacy. Becoming an expert takes time, training and the right tools. Give us your time, and we'll deliver the training and tools you need to master the Activator Method®, the world's number-one instrument adjusting technique.

Activator Methods International has been providing chiropractic care, resources and training since 1967. Founded on the principles of clinical research, the company's major contribution to chiropractic care is discovery and development of the world's most popular instrument adjusting technique, the Activator Method."
